- Original editable files provided on request (InDesign, Photoshop and/or Illustrator)

My job is to bring to life a design that captures your vision for your show. The first step in the design process is always to find out what look and feel you're after and to make sure I include any key images or themes.

All prices include up to three sets of amendments to the artwork. Prices do not include print costs but I am happy to get quotes if required.

Your design remains exclusive to you for six months after the date of your final performance.
